

Stroke rehabilitation in-patient program

Our inpatient rehabilitation programs are perfect if you require overnight nursing and medical care. Stay in a comfortable private room with ensuite and enjoy nutritional, balanced, and tasty meals cooked on-site daily using the freshest of ingredients. When your program is complete, you can continue to benefit from services through our day rehabilitation program.

Stroke rehabilitation day program

Our day rehabilitation programs are ideal if you do not require the support of inpatient care. Programs are offered as individual and group sessions with full day and half day options available. We also offer self-funded therapy packages where you can access Royal Rehab's modern facilities including a fully-equipped gym and hydrotherapy pool.

Referrals

To benefit from our stroke programs simply obtain a referral from your GP or treating specialist. Referral forms are available via our website at royalrehab.com.au/private-hospital. For more information, contact our inpatient team on (02) 9809 9011 or day rehabilitation team on (02) 9808 0522.

Fees and charges

We accept funding from most private health insurance funds, workers compensation and icare. We also welcome clients who wish to self-fund. If you are privately insured, ask your health fund about exclusions, excess payments or co-payments applicable to your cover. Contact our friendly team for a fee estimate.

Stroke rehabilitation programs

Tailored to you

When stroke changes life for you or a loved one, the right rehabilitation team can make all the difference in your recovery.

Royal Rehab understands your journey is unique. That's why we design innovative, evidence-based programs to meet your goals. Our caring and skilled health professionals take a holistic approach to your wellbeing to support you every step of the way.

Place yourself in trusted hands

Royal Rehab Private Hospital is a leading not-for-profit provider of physical rehabilitation services. Our evidence-based programs are built on the latest research, and we are renowned for strong clinical outcomes. Our skilled rehabilitation doctors and allied health professionals are leaders in their fields with a commitment to innovative, evidence-based practices and high quality care.

We are proud to incorporate advanced rehabilitation technology into our therapies for better results. We also boast a high staff to patient ratio to deliver you an exceptional customer experience.

Set in beautiful modern surrounds, Royal Rehab Private Hospital is owned by Royal Rehab, a registered charity with over 120 years' experience in rehabilitation and disability support services.

Set Yourself up for Success

At Royal Rehab Private Hospital, you will benefit from a commitment to research and education. Our programs incorporate the latest industry-leading knowledge and support you to achieve the best possible results.

Under the direction of a Rehabilitation Specialist, our team of friendly and experienced health professionals take a multidisciplinary approach to design a program that's tailored to you. This means you benefit from the most appropriate mix of allied health therapies and the combined expertise of our clinicians which can include:

- ✓ Nursing
- ✓ Physiotherapy
- ✓ Hydrotherapy
- ✓ Exercise physiology
- ✓ Speech pathology
- ✓ Occupational therapy
- ✓ Dietetics

Royal Rehab Private Hospital's modern facilities include a fully equipped gymnasium with the latest in rehabilitation equipment and a heated hydrotherapy pool. The welcoming campus offers peaceful courtyards and parklands, tennis courts and BBQ facilities, and is close to local cafes and shops.
